

KTBS-3 EARTHLINK-3

SHREVEPORT, LA

KTBS-3 EARTHLINK-3

KTBS-3 News is *On Your Side*, which means being the only station in the Ark-La-Tex to bring you news where and when it happens with Earthlink-3. A state-of-the-art Satellite earth station on wheels, Earthlink-3 is your Ark-La-Tex connection to news. Earthlink-3 allows the KTBS-3 News team to deliver news live from anywhere in the country.

With Earthlink-3, we can take you closer to national stories with local impact and cover them live as they unfold. KTBS-3 News is bringing you closer to stories that matter to you with Earthlink-3.

News Coverage - Earthlink-3's experienced staff of photographers, reporters and field producers can be on the scene to provide fast, professional live or taped coverage of breaking news stories. The mobile studio capabilities include the newest equipment for strong, reliable visual and audio signals.

Sports Earthlink-3 – We can provide uplink capabilities for your crews at the site of major sporting events.

Satellite News Conference - Share your good news with the community, the news media, clients, vendors or others via a live satellite news conference. Management decisions, reports, new products or fundraising kick-offs can be produced and transmitted via Earthlink-3 at very affordable prices.

Video Conferencing – For educational or training conferences or communicating with shareholders, employees or other stockholders, Earthlink-3 can save valuable time and eliminate costly travel. Hold video business meetings and training sessions between two or more locations via satellite.

Video News Releases and Corporate Videos - Put your business and people in the spotlight. Produce company videos for clients, employees, vendors or prospects - or news releases for broadcast - in the confines of your own offices using our mobile studio. Earthlink-3's production crew provides professional lighting, camera work, with quality audio and video. Our staff can conceptualize and write your videos for training, sales presentations, operating instructions, service or product capabilities and video tours.

*Earthlink-3 is available for your event.
